Build your high-performance networks with Berk-Tek and Leviton, two of the most innovative, reliable, and service-oriented names in the industry. Berk-Tek cable and Leviton connectivity combine to create the industry's premier copper, fiber and AV, end-to-end solutions.

Berk-Tek has spent the last 50 years maximizing the capabilities of cabling systems. This focus has enabled the development of innovative cabling that addresses the particular needs of enterprise, campus and data center networks, including high-speed transport, high-density installations and rapid deployment.

The products offered by Berk-Tek lead the industry in performance, reliability and robustness. Independent verification to product specifications, not just industry standards, offers customers an added level of certainty of the quality being delivered.

For the past quarter century, Leviton Network Solutions has engineered and manufactured copper and fiber optic connectivity products for enterprise, data center, government, education, health care and residential markets around the globe.

Leviton manufactures nearly all of its branded products in company-owned, ISO 9001-2008 certified facilities located in the United States. All Leviton products are engineered to exacting standards, offer industry-leading performance and are backed by the industry's best service and support. That's what makes Leviton the smart choice for a better network.
