Gray	11089905	11089907

LANmark™-10G2

FEATURES

- New flexible, round, compact design
- Alien Crosstalk compliant
- Fully compliant to Augmented Category 6A requirements
- Reduced attenuation (insertion loss)
- Documented balance characteristics (LCL/TCL, EL TCTL)

BENEFITS

- Easier installation and cable management with round design
- Round design provides a true OD measurement of 0.300"
- Provides the bandwidth required for multimedia, broadband video, analog video and other future applications
- Balance characteristics improves overall cable performance and reduces transmission errors
- Characterized to 750 MHz, 250 MHz greater than the standard
- Improved insertion loss for stronger signal to noise ratio
